ACCELERATING DATASPACES

FUNDING OPPORTUNITIES &  
MEMBERSHIPS

Together for intelligent data use!

## DIO FUNDING OPPORTUNITIES & MEMBERSHIPS

The Data Intelligence Offensive is a cooperation platform for individuals, companies, organisations, and public agencies to push and promote the data economy and optimise the use of technologies. The goal is to create an open and transparent data-service-ecosystem, which is build on data circuits, data spaces and working groups to compensate market imperfections and to enable market development.

**We want to grow with you - become part of the DIO network and help shape the data service economy in Austria in a sustainable way!**

### How to shape the data service economy with us and our network

#### Sponsors:

For companies, institutions and public bodies, which want to significantly support the development of the data economy. Each sponsorship option comes with a different set of perks:

#### Sponsors Gold

- Access to Freemium data
- Invitation as a speaker, representation of your company
- Contribution to Big Data policy (focuses...)
- Access to data circuits
- Advertisement / logo placement
- Access to the network and Big Data experts

#### Sponsors Silver

- Contribution to Big Data policy (focuses...)
- Access to data circuits
- Advertisement / logo placement
- Access to the network and Big Data experts

#### Sponsors Bronze

- Advertisement / logo placement
- Access to the network and Big Data experts

Ministries and public institutes can only join as gold sponsors.

#### Memberships:

For natural and legal persons, who want to get actively involved in the association.

**Ordinary membership:** For full active participation in the activities of the association. Participation in general meetings with voting rights.

**Associate membership:** For support, exchange of information and invitations. Participation in general assemblies without voting rights.

#### Multipliers:

For natural and legal persons, who are interested in the topic and want to contribute their know-how and network to DIO. In return, DIO offers professional input, lectures, etc. for your self-organized activities and events. Multipliers are not members of the association and therefore have no access to the AG, DR, and DK. Participation in general assemblies without voting rights.

The prices for the different options can be found in the declaration of support or membership.

---

## Declaration of support or membership

---

_____ Company	_____ Representative
_____ UID/ZVR	_____ Function in the company
_____ Address	_____ E-mail
_____ Date of joining	_____ Telephone

---

### Desired type of support

---

- Sponsor Gold**  
5.000 EUR/year\*
- Sponsor Silver**  
4.000 EUR/year\*
- Sponsor Bronze**  
2.500 EUR/year\*

The sponsorship can be canceled annually in writing. The billing period begins with the conclusion of the contract. Notice period: 3 months. Ministries and public institutes can only join as gold sponsors.

---

### Desired type of membership

---

#### Ordinary membership

- Natural person**  
100 EUR/year
- Legal person**  
1.000 EUR/year

#### Associate membership

- Natural person**  
50 EUR/year
- Legal person**  
500 EUR/year

Signature

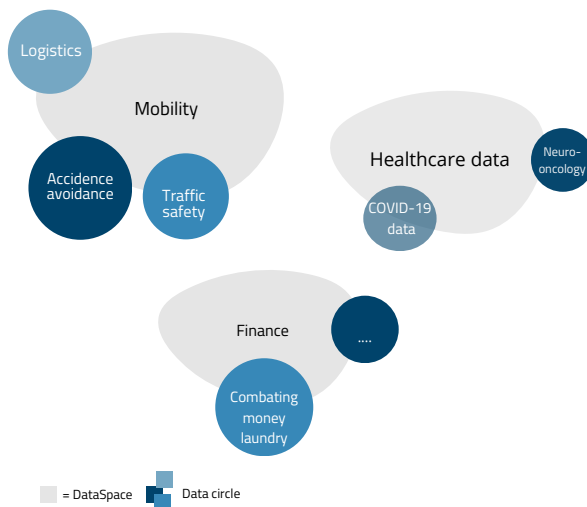

All details on the different DIO funding opportunities and memberships including consideration can be found in the attached sheet.

## Get active now!

Questions about the data market are discussed in working groups, data spaces and data circles. Data exchange is implemented securely and in a way that creates value. For R&D projects DIO is your dissemination and communications partner.

### Working groups

... enable various experts to exchange information and prepare statements on relevant cross-sectional topics, e.g.: Data & Law.

### DataSpaces

... focus on superordinate domains (economic areas, sectors) and are a potential basis for data circles. Domain-specific data spaces can optionally exchange metadata, e.g.: Mobility, Energy, Health.

### Data Circles

... implement a concrete data exchange in a specific application area. The added value is identified, hurdles are removed, and demonstrators are created. e.g.: Persons with reduced mobility (PEM).

“

*“It is not only about sustainability, it is about survivability.”*

**Prof. Dr. Peter A. Bruck PhD MA, Honorary Member**

”

“

*“The digital transformation is changing all aspects of life and we are striving to make the best possible use of it. Big data analytics, modulation or simulation accompany us every day and thanks to networking in the community and through DIO, we can now understand and process subject areas even better.”*

**Dipl.-Ing. Mag. Günther Tschabuschnig, DIO president and digitization expert, BRZ**

”

**We look forward to the cooperation with you!**
